

Protective clothing in various forms (steam, chemical...) are part of the specialised products that MATISEC develops and manufactures for the most extreme uses...

MR CHIM

The suit provides protection against a wide range of liquid hazardous chemicals and against the ingress of infectious agents. This airtight and ventilated equipment is designed to ensure the total protection of a person having to work in a contaminated atmosphere. It must be supplied with breathable compressed air, the quality of which must comply with standard NF EN 12021.
