

With the increase in industrial risks, the harmfulness of modern fires and the professionalism of users, MATISEC designs and manufactures Insulated Breathing Apparatus combining robustness, ergonomics and new technology. Recognised by many fire brigades, the Navy...

HP/MP Rescue Source

Lighter than a trolley, this source can supply a diving suit or a SCBA with individual air supply... In the form of a mini trolley like a "golf bag", this source will provide you with breathable air on any terrain.
