

Matissec develops and manufactures ventilated PPE for the protection of workers in contaminated environments. Using fireproof and reinforced materials and high-tech plastics, Matissec is constantly improving the reliability of its suits and helmets. All suits and helmets comply with current standards, EN 1073-1, EN 943, EN 270.

ALL MATISEC VENTILATED HELMET

▶ MATIVENT Pink & Natural

The MATIVENT pink and natural balaclava has a robust and reliable design and is perfectly positioned on the wearer's shoulders thanks to its universal faceplate. It meets the requirements of EN 1073-1, EN 270 and EN 143. Its lightness is an incomparable asset.
