

Matissec, leading manufacturer of ventilated suits and ventilated helmets, now masters, for 100% reliability, the complete line integrating upstream of the PPE, the hoses and the secure filtration terminals conforming to EN 14593/14594.

Analysis system

The analysis cabinet allows continuous monitoring of a breathing air network. Different sensors are installed: O₂ / CO / CO₂ / VOC and 3 other inputs available (toxic gases, T°, Flow).
