

With the increase in industrial risks, the harmfulness of modern fires and the professionalism of users, MATISEC designs and manufactures Insulated Breathing Apparatus combining robustness, ergonomics and new technology. Recognised by many fire brigades, the Navy...

TOTAL 3 Hair Net

The TOTAL 3 mask conforms to the NF EN 136 standard (class 3) and benefits from the technological advances of the SCBA mask, i.e. a double lip seal for all faces, a wide field of vision without optical deformation and breathing comfort. The mask can be fitted with a mesh or rubber spider cap allowing a quick and easy fitting of the mask and the wearing of a protective helmet without discomfort.
