

With the increase in industrial risks, the harmfulness of modern fires and the professionalism of users, MATISEC designs and manufactures Insulated Breathing Apparatus combining robustness, ergonomics and new technology. Recognised by many fire brigades, the Navy...

HP/MP Trolleys

In an emergency situation requiring the use of SCBA, CHEMICAL SUIT, NUCLEAR SUIT, MAT AIR, or escape bonnet additional breathing air may be required. The Cylinder Carrier's modular, lightweight and compact design allows emergency crews to have air on the move.
